The Teknobili collections are dedicated to the markets premium segment: worldwide, their style, elegance and efficiency represent Italian excellence in this sector. Working with the best international designers and using cutting-edge production technologies allow us to remove the gap between imagination and reality, giving life to collections with strong style identity and advanced special technological details.

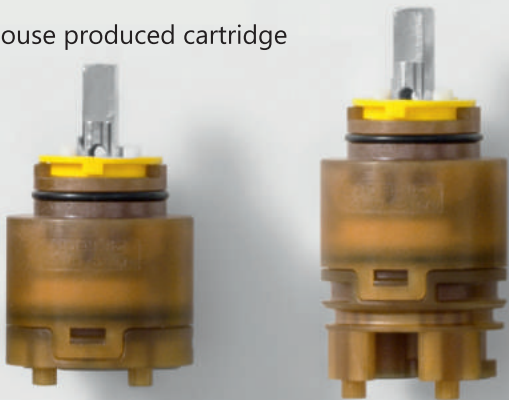

EFFICIENCY-ORIENTED TECHNOLOGY

Nobili products speak of technology at the service of mankind, of the quality of life and respect for the environment - the best that technical knowledge can offer, made with processes designed to obtain the best production performance. This amazingly efficient organism works in perfect synergy as it strives to achieve ambitious results that have always been inspired by realistic spirit and sense of responsibility.

in-house produced cartridge

energy saving

food-grade plastic

maximum flow control

dynamic flow regulator

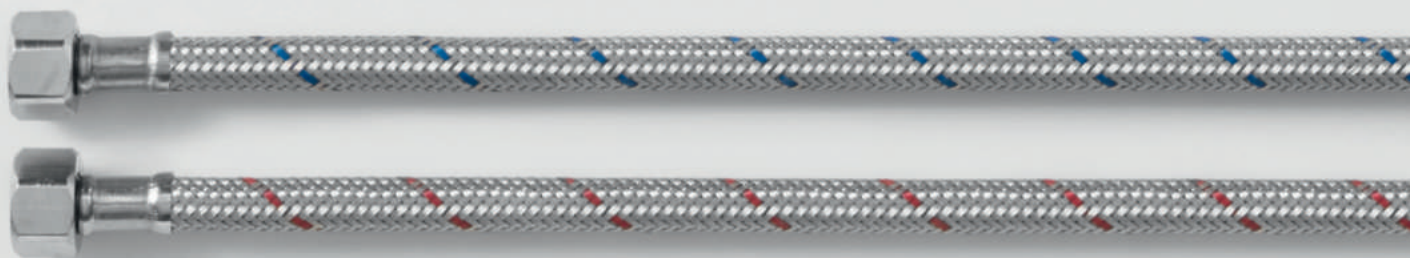

temperature limiter

metal rod

ceramic plate

soft motion

no-lead brass

5 l/min flow limiter

screen-printed in italy

eco-friendly packaging

high strength chrome plating

certified hoses

LOOP

Piet Billekens

When the best technology is combined with aesthetics, the result is extraordinary.
The pure design of the Loop collection pays exclusive homage to the technological efficiency from which it derives.

NEW ROAD

Centro Stile

The concept of the New Road collection is well and truly new. It not only demonstrates the stylistic tradition of a product of pure design but also strives for a decidedly more ambitious objective: offering a mixer that is more environmentally friendly than any other produced to date. The incredible water and energy saving attributes of the Nobili Widd® 35 Eco cartridge is an unambiguous symbol of our greatest passion: technological innovation.

DUBAI

Mauro Carlesi

The style of the Dubai collection emerges through each precious ornament: the sinuous nature of the form, the refined elegance of the handle, the spectacular 360 Greek engraving on the mixer body after chroming by means of a high precision laser. The Dubai collection, also available in a gold finish: diverse aesthetic aspect, unequalled classic taste.

INFINITY

Mauro Carlesi

The Infinity shower system, universal flush fitting that allows the creation of a two-way bathroom setting for bath or shower, leaving the user maximum freedom to choose the aesthetics as well as the type of mixer, single lever or thermostatic control. Once built-into the wall, the user is totally free to enjoy a variety of aesthetics and options by selecting and combining the preferred accessories from the Teknobili collections.
